

The Tripartite Collaboration is a concept of strategic coordination between the European Commission, the EOOSC Association (EOOSC-A) and every Member State and Associated Country involved in the EOOSC Steering Board. Together, they want to resource and support the implementation of the EOOSC environment in Europe. An EOOSC Tripartite Event aims to intensify outreach and coordination of EOOSC relevant actions at national level. This event is expected to trigger engagement and reinforce dialogue between relevant Ministries, Research Performing Organisations, Research Funding Organisations and the wider EOOSC research community. This National Tripartite Event aims at promoting the Open Science and EOOSC policy development in Georgia and increase EOOSC's visibility in the country. The hosting organisation in Georgia is the Ministry of Education and Science of Georgia.

## Agenda
