# EOSC and FAIR data development initiative by the Ministry of Education and Science of Georgia

Since 2021:

- 2022-2030 Unified National Strategy of Education and Science of Georgia meets the EOSC ambition on providing a federated and open multidisciplinary environment.

The activities determined in the Action Plan:

- Implementation of financial levers to improve scientific bibliometric data of Georgian researchers;
- Creation of an open database of Georgian scientists to implement an "open science" policy;
- Facilitating the development of innovation ecosystem hubs that provide services relevant to regional needs and capacities;
- Integrating the national research digital platform into European networks;
- Elaborating a legal basis for the creation of a technology transfer support center.

# EOSC and FAIR data development initiative by the Ministry of Education and Science of Georgia

Since 2021:

- SRNSF programme: Supporting the development of Open Science

*FAIR data base of research data created in XXI c.*
