Tripartite Event | Bulgaria

Impact of open science on research institutions and their visibility

Prof. Dr. Ana Proykova

Delegate to EOSC-A, Sofia University

Open Science in a nutshell

- A policy priority for the European Commission
- The standard method for working: improves quality, efficiency, responsiveness
- OS helps a rapid sharing of the new results
- OS increases the visibility of the research institutions and the researchers
- OS attracts citizen groups to contribute to innovation process

Sofia University (SU) – a member of the EOSC - Association

- being the host of the RDA Europe4.0 Informs the research organizations, public administrations and the society about the value of the Open DATA (FAIR): Findable, Accessible, Interoperable, Re-usable

<https://rda.bg>

Meet The RDA Europe Nodes Below And Join Their Communities

RDA integration with

- RDA Europe 4.0 & EOSC: EOSC-HUB, EOSC-GOVERNANCE
- RDA Europe 4.0 & CoNOSC (Council for National Open Science Coordination)
- OpenAire & OpenAire - BG

SU: Ambassador of EOSC-A (250 members and observers)

A membership in the EOSC-A gives an organization the opportunity to:

- Actively shape the strategic development of the European Open Science Cloud by contributing to the Partnership's Strategic Research and Innovation Agenda and its Multi-Annual Roadmaps;
- Actively guide the strategy for the EOSC implementation phase by contributing to EOSC-A's Advisory Groups, Task Forces and Working Groups

SU as a member of the EOSC-A

- Participates in General Assembly meetings with voting rights;
- Gains a voice in relevant policy dialogues and access to policy makers at the European and national levels;
- Showcase the contributions and impact;
- Network with like-minded people and become an ambassador of the Open Science via introduction of alternative metrics and awards

Future of Open Science: turn the stone into owl (Akie Nakata)

Thank you for your attention!
