

National Tripartite Event Italy

The EOSC Association and the Horizon Europe EOSC Partnership

Marialuisa Lavitrano, Vice President / Ute Gunsenheimer, Secretary General
EOSC Association

16 May 2023 by EOSC-A

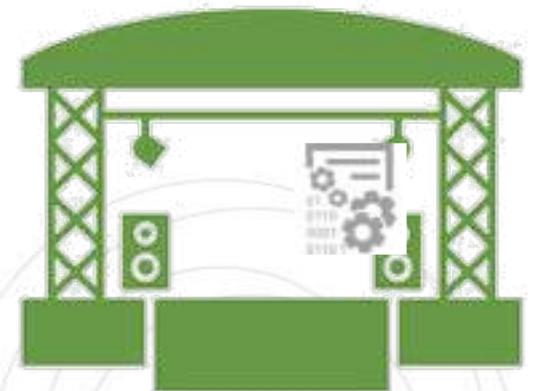

Today's Topics

- A Web of Scientific Insight
- The EOSC Association
- Its role in the Horizon Europe co-programmed EOSC Partnership

eosc EOSC - “A Web of Scientific Insight”

- Web of FAIR Data and related Services
- Federation of relevant existing and future data sources
- Virtual space where science producers and consumers come together
- An open-ended range of content and services
- Based on the FAIR principles
- Meeting all European data requirements
- In interaction with other regions of the world

What do we concretely aim for?

- Researchers performing publicly funded research make relevant results available, as openly as possible;
- Professional data stewards are available in research-performing organisations in Europe to support RDM for Open Science;
- Research data produced by publicly funded research in Europe is FAIR (by design);
- The EOSC Interoperability Framework supports a wide range of FAIR digital objects including data, software and other research artefacts;
- EOSC Federation is populated with a valuable corpus of interoperable data;
- EOSC (version x) is operational and provides a stable infrastructure, supporting the research process and helping to address societal challenges;
- The scope of EOSC is widened to serve the public and private sectors;
- EOSC is a valuable and valued resource to a wide range of users from the research and education, public and private sectors (including for-profit).

eosc Where do we stand?

- After an initial period of many projects without much convergence (2015-2020) we have to see that we get our aims sufficiently developed in the present period of convergence (2021-2026).
- For this it is essential that we get a Minimal Viable EOSC (MVE / EOSC-EU-node) operational asap and as good as possible aligned with work done by all the relevant communities (European, National and Institutional).

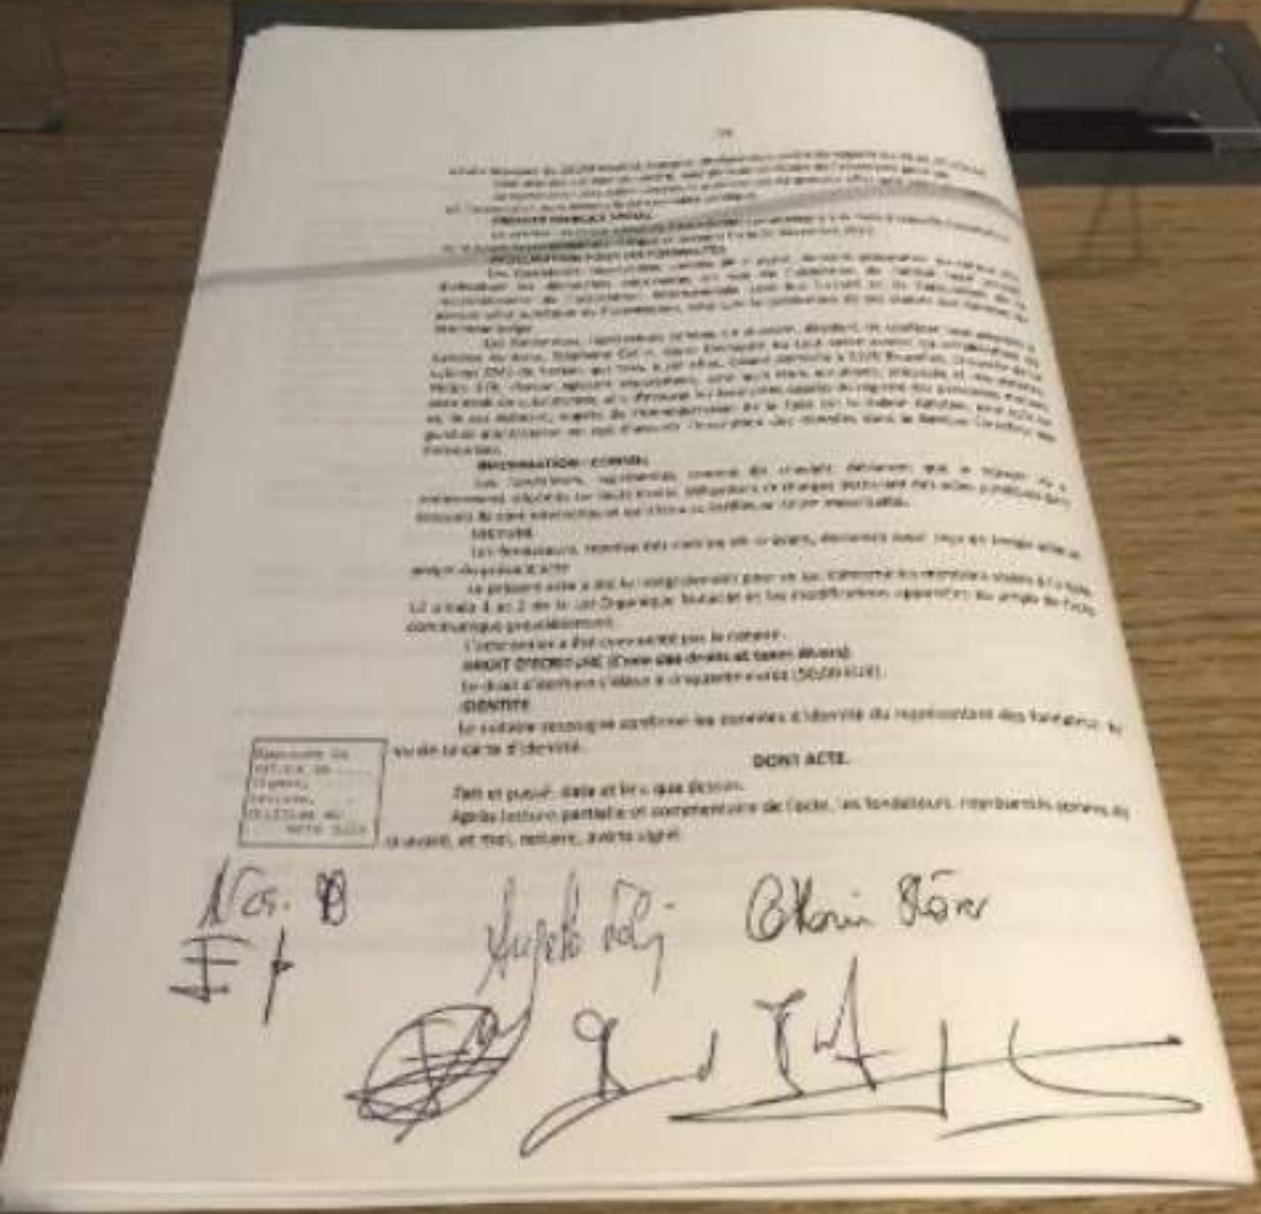

The EOSC Association - The Voice of the Community

The Purpose of the EOSC Association

Incorporation, 29 July 2020

- (1) to provide a single voice for the advocacy and representation of the broader EOSC stakeholder community;
- (2) to promote the alignment of European Union research policy and priorities with activities coordinated by the Association;
- (3) to enable seamless access to data through interoperable services that address the entire research data life cycle.

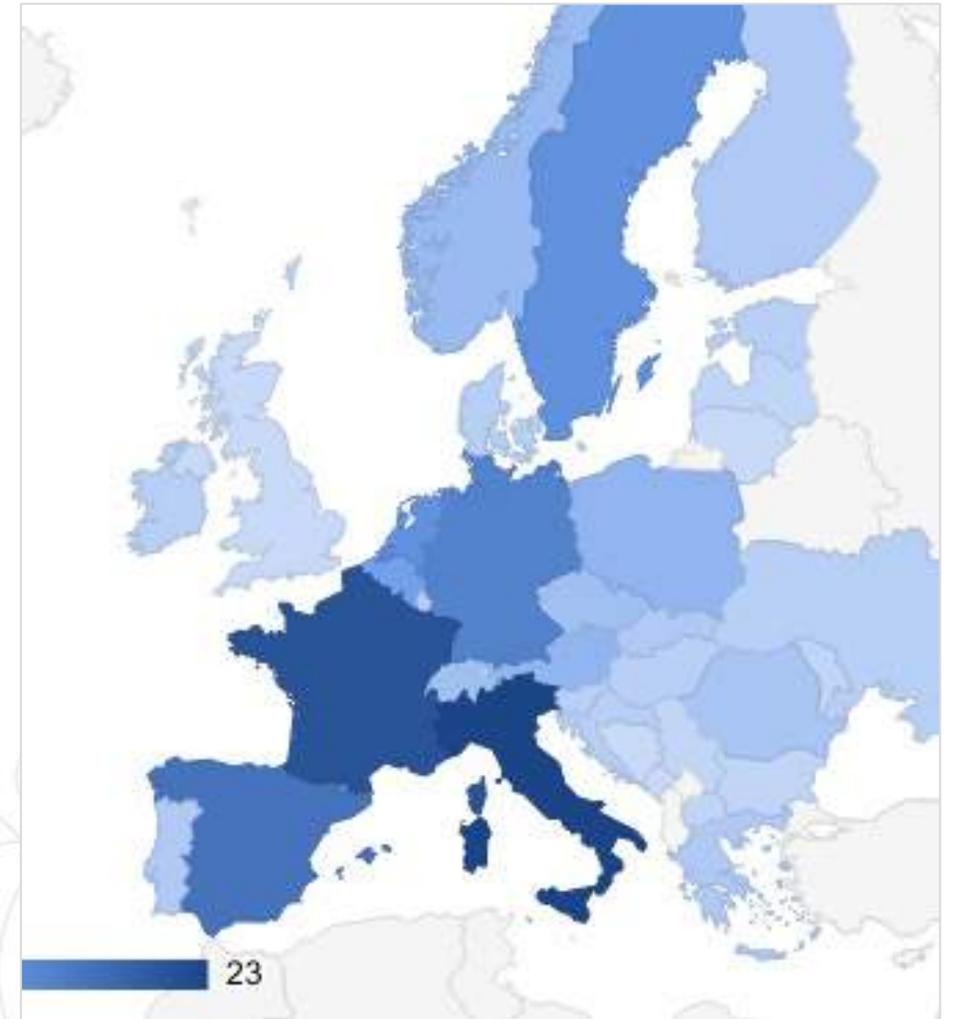

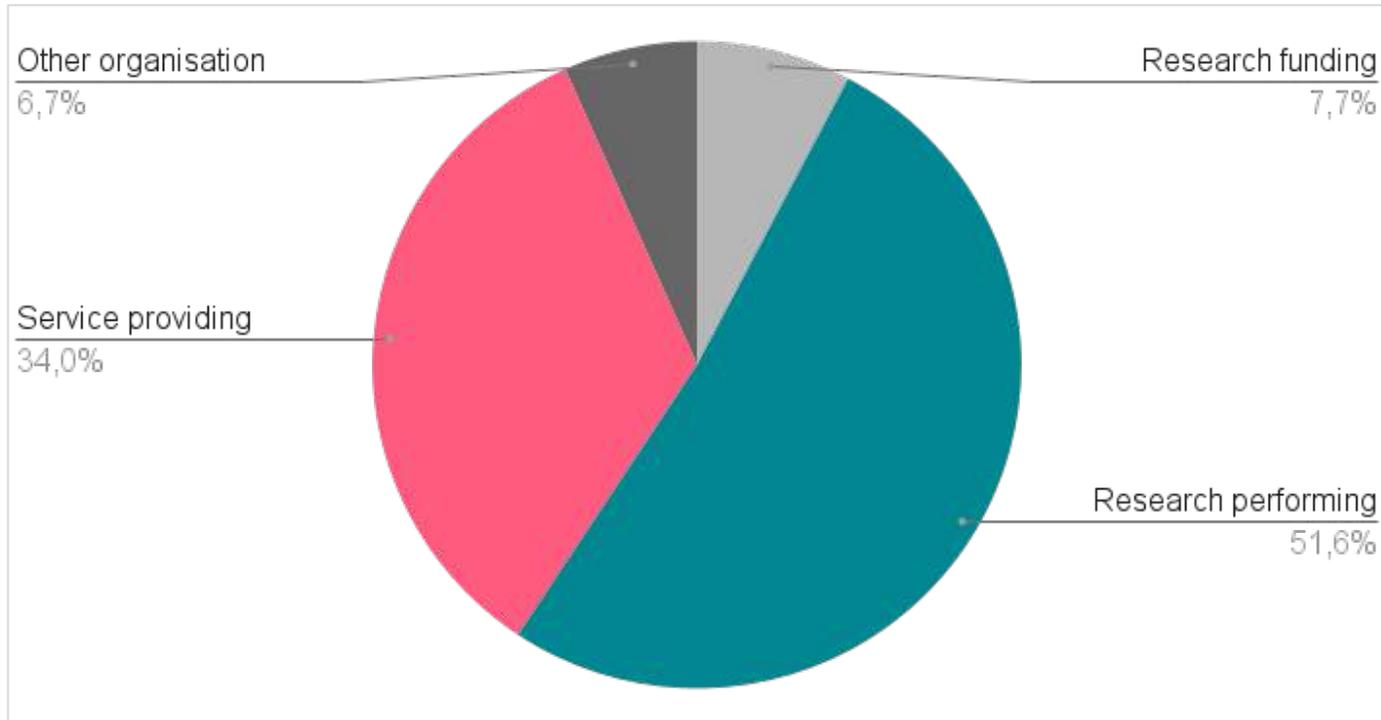

eosc The Benefits of being a Member

- Actively **shape the strategic development** of the European Open Science Cloud by contributing to the Partnership's [Strategic Research and Innovation Agenda](#) and its [Multi-Annual Roadmaps](#);
- Actively **guide the strategy** for the EOSC implementation phase by contributing to EOSC-A's [Advisory Groups, Task Forces and Working Groups](#);
- **Participate** in General Assembly meetings with voting rights;
- **Gain a voice** in relevant policy dialogues and access to policy makers at the European and national levels;
- **Showcase** the contributions and impact of your organisation;
- **Network** with like-minded people and become an ambassador within your organisation's peer group.

eosc 167 Members and 84 Observers

A strong memberbase

eosc Italian Members & Observers

26 Organisations (1 Mandated Organisation, 22 Members, and 4 Observers)

CERIC

National Research Council of Italy

eosc Italians in EOSC-A

A Strong Community Voice

13 Task Forces with over 400 volunteers

Implementation of EOSC

- Rules of Participation compliance monitoring
- PID policy and implementation
- Researcher engagement and adoption

Technical challenges on EOSC

- Technical interoperability of data and services
- Infrastructure for quality research software
- AAI Architecture

Metadata and data quality

- Semantic interoperability
- FAIR metrics and data quality

Research careers and curricula

- Data stewardship curricula and career paths
- Research careers, recognition and credit
- Upskilling countries to engage in EOSC

Sustaining EOSC

- Financial sustainability
- Long-term data preservation

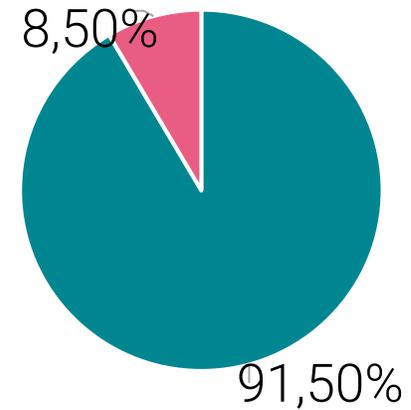

564 members in the EOSC-A TF

Horizon Europe co-programmed EOSC Partnership

Launched June 2021

One billion euros commitment by the European Union and the EOSC Association

16 May 2023 by EOSC-A

Strategic Research and Innovation Agenda

Open Science practices and skills are rewarded and taught, becoming the 'new normal'

Standards, tools and services allow researchers to find, access, reuse and combine results

Sustainable and federated infrastructures enable open sharing of scientific results

Multi-annual roadmap sets priority activities and outcomes grouped by three implementation levels – European, National, Institutional

Three phases of MAR:

1. 2021-2022: development towards a functional federation of infrastructure
2. 2023-2024: expansion to production that generates added value
3. 2025-2027: expansion to develop impact from Open Science

Commitments

The MoU is established between the Partners

The EU represented by the Commission
The EOSC Association (“Partners other than the Union”), including its constituent entities (members)

Governance: Partnership Board

Composition: Representatives appointed by the Partners other than the Union, Commission officials and Representatives of the Steering Board

The MoU is a contractual arrangement, not legally binding

Commitments of the EC

To duly take into account the input and advice from EOSC-A when defining call topics relative to the scope and objectives of the SRIA

Scope & objectives

To contribute to the objectives defined in the SRIA incl. the KPIs to measure progress
Expected financial and in-kind commitments by the partners (490 MEUR + 500 MEUR)

Commitments of EOSC-A

In-kind contributions
Monitoring and Reporting

 Commitments of the European Commission

 Commitments of the EOSC Association

eosc Demonstrating Added Value by 2025 – EOOSC-A

Additional Activities of EOOSC-A Members

22-23 May 2023
6th General Assembly

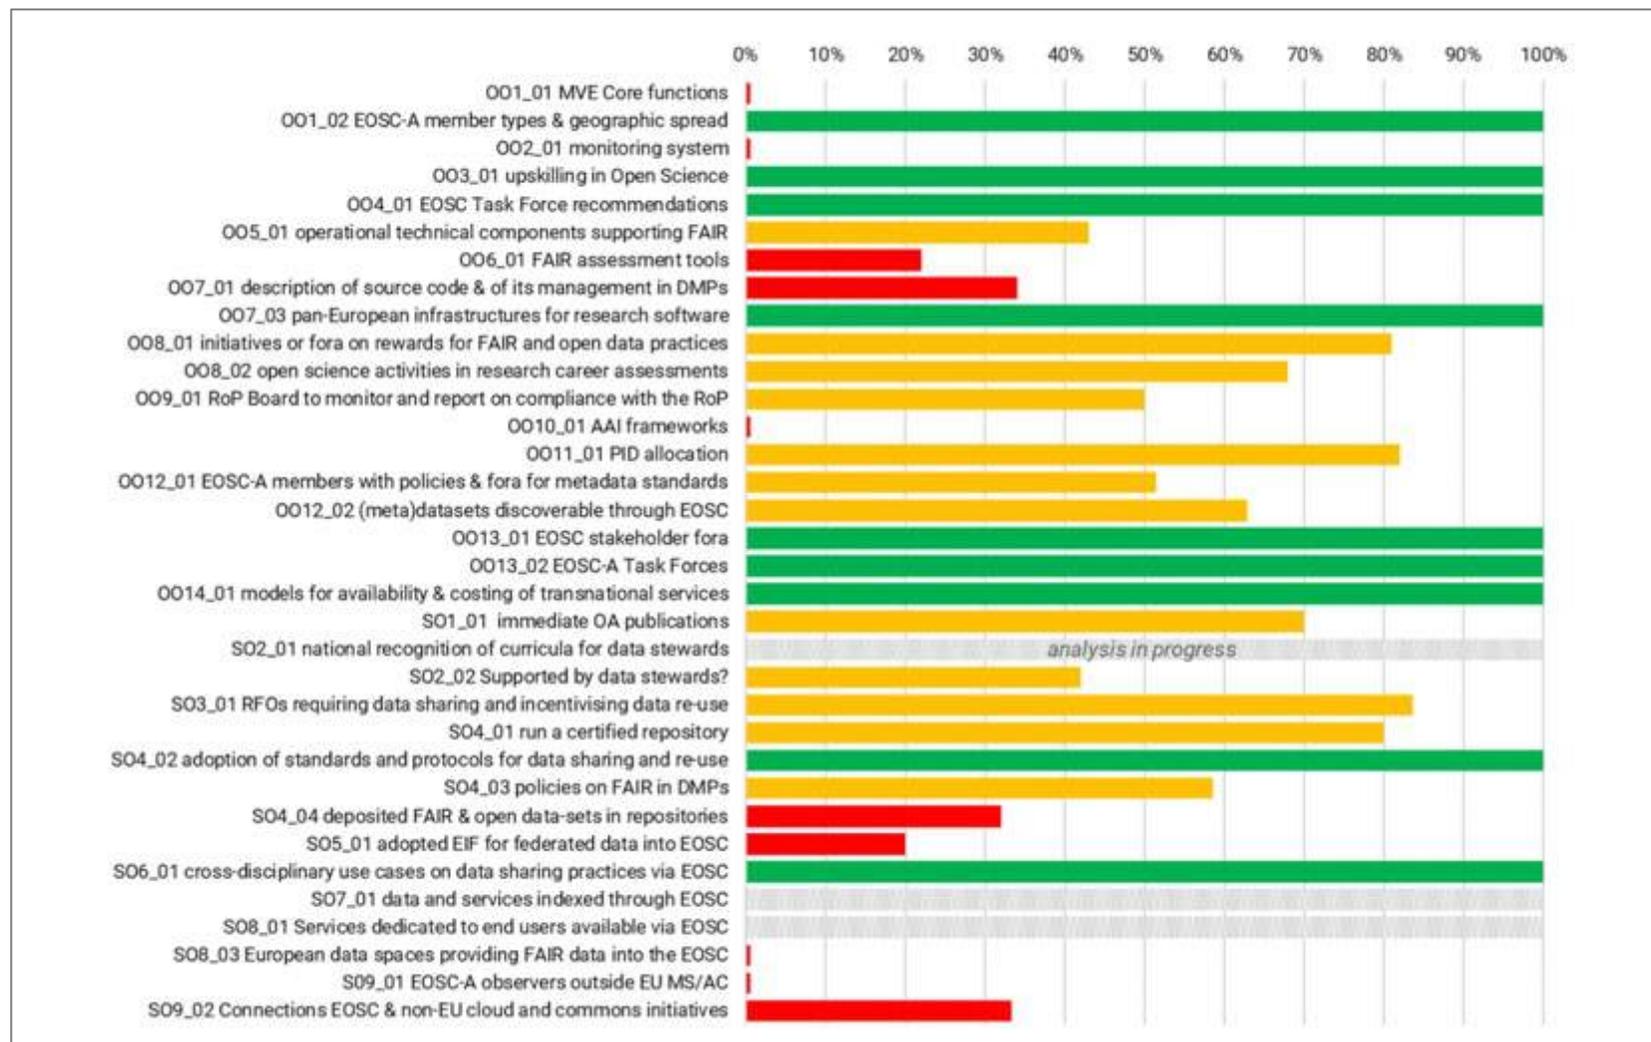

AAP 2021 (Pilot)
EUR 309.005.000
Eligibility of all months unclear

AAP 2022
EUR 312.453.697
1468 FTEs
Demonstrators: EUR 64M

AAP 2023
EUR 383.929.296
2105 FTEs
Demonstrators: EUR 94M

Tracking & visualising the EOSC implementation

The Macroroadmap of the HE INFRAEOSC projects

- **A new tool that will be made available for the EOSC stakeholders to:**
 - Understand how the different HE INFRAEOSC projects contribute to the EOSC Implementation
 - Map the results of the HE INFRAEOSC projects on the EOSC roadmap timeline / SRIA implementation actions
 - Identify potential gaps in terms of EOSC implementation priorities
- **The macroroadmap will be accessible via the eosc.eu website**
- **The macroroadmap is produced by EOSC Focus in collaboration with ALL the HE INFRAEOSC projects (*EOSC Focus is currently organising interviews with all the projects to gather the relevant information*)**
- **Iterative process**
 - A first “macroroadmap” of results will be available by the EOSC Symposium 2023
 - The EOSC-A, via EOSC Focus, will keep the macroroadmap updated

National Tripartite Events

MAIN RESULTS:

- **21 countries targeted in NTE** (July 2022-April 2023)
- **1683 participants in National and NTE** (July 2022-April 2023)
- **+ 30 preparatory meetings**
- **29 country pages**
- **13 Articles**
- **6 Post event reports**
- **Social media coverage**

COUNTRY PAGES - SECTIONS:

- EOSC representatives
- OS in the country
- Coordination structures
- Policies
- Practices & Use Cases

UPCOMING TRIPARTITE EVENTS (May - September 2023)

Tasks on the way to create EOSC

Operational and development tasks in discussion with the EC

1. Deploying and operating the EOSC EU node
(Core, Exchange, FAIR Data Federation)
2. Maintaining and updating the EOSC EU node and expanding the EOSC federation
(with elements that are close to the 'market')
3. Enabling a 'web of FAIR data and services' for science
4. Develop, prototype and test new elements supporting the evolution of the EOSC Core and Exchange and the tools enabling the federation
(focus on elements that can be made ready for the 'market')
5. Enabling Open Science policies and the uptake of Open Science practices

Getting ahead of the curve and advancing to the next level, means:

- Take advantage of ongoing EU and national policy making
- Understand the evolving objectives of the funders of this transition
- Realise that FAIR is the most important requirement;
- Educate staff and 'train the trainer';
- Create 'Data/Digital Competence Centres';
- Connect to other relevant initiatives at domain-specific levels as well as on the national level
- Join this powerful movement to make Open Science the new normal
