

Potential Agenda: Tripartite ES

Location: Zaragoza, at IACS premises

Date: 2/10

Time: 11:00 - 15:30

Focus: From the EOSC Federation charter to the EOSC-ES node proposal

Topics:

- Current status of the EOSC federation, governance model and implementation plan in the next EC framework program
- Presentation of the charter (EOSC-ES Node implementation plan) resulting from the assistance of EOSC-Gravity and delivered on 9/9
- EOSC-ES node governance model
- Provision of core services and use cases of the EOSC-ES

Language: At least the first session in English.

Institutional presentation (15')

- Table of authorities with representatives of the Government of Aragon, the Ministry of Science, IACS and the COS-Gob (TBD).

Tripartite Session and National Context (Tripartite Presentation) (1h)

- EOSC-A [Klaus Tochtermann for videoconf]
- EC (including HORIZON-INFRA-2027-01-EOSC-01) [Javier López Albacete]
- EOSC-SB (including the national vision of HORIZON-INFRA-2027-01-EOSC-01) [Inmaculada Figueroa]

Presentation of the implementation plan of the EOSC-ES node [Juan González - IACS, Ignacio Blanquer - UPV, Helena Lozano - CSIC, Daniel Garijo - UPM] (30')

- EOSC-ES Node Proposal
(Value proposition, repositories and services, use cases, compliance with technical requirements, external dependencies and risks, community management and activity schedule - presentation of the charter that will have been sent on 9/9)
- Preliminary list of use cases
(There is a second deliverable on 9/11 with the extended list of use cases)
- Discussion.

Coffee break

Alignment of EOSC-ES with the requirements and needs of the EOSC federation [Moderated by Juan, Helena Lozano - CSIC, Daniel Garijo - UPM, proponents participate] (1h)

- Core services of the EOSC-ES Node.
(List of services, existing providers, necessary evolution with respect to existing services. SLAs)
- Revised proposal from catalog, service, and resource providers.
(Candidate showcase, Responsibilities, Opportunities, Procedure in case of multiple applications, Agreements for the division of responsibilities)
- Revised proposal for the selection of use cases.
(Definition of the criteria for selecting the use cases to which the node will commit, showcase of use cases, other use cases, maturity, interrelation with other nodes)

EOSC-ES Governance Model [Moderated by Ignacio Blanquer and Representative of COS-Gob] (40')

- EOSC Federation requirements.
(Brief presentation of the MoU that the nodes must sign)
- Support models for the federation
(Different alternatives for internal agreements to constitute a node, alignment with the structures of the ministries, co-financing models, call 2027-EOSC-01)
- Discussion and plan to agree on governance.
(Work plan, potential candidates, onboarding criteria)

Conclusions and Work Plan. (5')

Meal

Total: 3:30 + break + lunch
